MY 2ND IDEA FOR SELF DESIGNED APP:-

I want to design a QUOTE MASTER APP in which users can add quotes and viewers will see them and if they like it, they can like the quote and even send emojis for the quote.

USER STORIES FOR QUOTE MASTER APP:-

ADMINISTRATOR:-

As an administrator, I want users to sign up and login to the app so that they are authenticated users.

As an administrator, I want users to publish their quotes to the app so viewers can like and send emojis to the quote and get a good moral from the quote.

USER:-

As a user, I want to publish my quotes to the app so viewers can see, like and send emojis to the quote and they can get a good moral from the quote.

As a user, I want to receive notifications if someone likes, send emojis to my quote so that I can know how many viewers liked my quote.

VIEWER:-

As a viewer, I want to like and send emojis to the published quotes so that the publisher can know how many viewers liked the quote.
